May It Please Your Honour,

The undersigned has the honour to present the Annual Report of the Debt Retirement Fund for the year ended March 31, 2002.

Respectfully submitted,

Honourable Greg Selinger
Minister Responsible for the
Debt Retirement Fund

FUND PROFILE

The Debt Retirement Fund (Fund) was established by The Balanced Budget, Debt Retirement and Taxpayer Accountability Act (previously Taxpayer Protection), which received Royal Assent on November 3, 1995 and was amended in August 2000.

The original Act requires that the Government not incur a deficit in any year (subject to limited exceptions), that it gradually retire the general purpose debt of the Province, and that it not increase the rates of major taxes without prior approval of the voters of Manitoba in a referendum. The objectives of the Act were: (a) to prevent any further increase in the general purpose debt of the Province; (b) to provide for the retirement of the general purpose debt, so that the resources devoted to paying interest on the debt may be devoted instead to providing public services or reducing taxes; and (c) to ensure that there would be no increases in the rates of major taxes without the prior approval of taxpayers.

The amendments made in August 2000 added a plan to retire the government's pension liability by the year 2035, while still retiring the general purpose debt five years later. In addition, the government is now precluded from using the proceeds from the sale of Crown corporations to balance the budget or bolster the Fiscal Stabilization Fund.

The Fund is a mechanism for retiring the accumulated debt and pension liability. A formula in the Act specifies the minimum amount that must be deposited into the Fund each year. This minimum deposit requirement increases as the debt is reduced. The Minister of Finance may deposit a larger amount in any year. The assets of the Fund are on deposit with the Minister of Finance. The funds are invested and accorded market rates of interest.

The amendment to the Act requires that at minimum, the Province must, from the annual deposits to the Fund, set aside for pension obligations an amount equal to pension contributions made by employees and teachers hired on or after April 1, 2000.

All money deposited in the Fund, along with any interest earned, can only be used to reduce the pension liability and general purpose debt of the Province. The amount to be contributed to pensions and debt were fixed by the legislative amendments at $75 million and $21 million respectively for the fiscal year 2001-2002. Subsequent allocation of deposits is to be determined by a Debt Retirement Fund Allocation Committee appointed by the Lieutenant Governor in Council.

Funds allocated for pension purposes are transferred out annually. Those designated for debt retirement are transferred to the Operating Fund to retire debt as appropriate or at least every five years.

2001-2002 ACTIVITIES

A payment of $96 million was made into the Fund in 2001-2002.

In accordance with the legislation, $75 million was transferred out for pension liability purposes.

The remaining $21 million was designated for debt retirement and remains in the Fund at year end, along with interest.
